

Prevention of Medical Errors 2016 Behavioral Learner Objectives

At the conclusion of this presentation, the healthcare provider will be able to:

1. create a culture of safety in a healthcare organization.
2. describe the role of technology in prevention of medical errors.
3. discuss selected strategies for error reduction and prevention.
4. discuss selected strategies for improving patient safety.
5. conduct a root cause analysis.
6. integrate a systematic approach for reducing medication errors, surgical errors, diagnostic inaccuracies, and system failures.
7. improve patient care for the required topics of the State of Florida Board of medicine and Board of Osteopathic Medicine
